

EDUCATION

Queen's University | Honours B.Comp in Software Design | Sept 2022 - June 2026

- Relevant Coursework: **Data Structures, Algorithms, Software Architecture, Human-Computer Interaction.**

VOLUNTEER EXPERIENCE

Queen's Black Tech | Lead Software Developer | Sept 2025 - May 2026

- Led **React** and **TypeScript** development for Queen's Black Tech's website, building core features to connect 100+ Black students with tech events and career opportunities.
- **Mentored** a cohort of interns with no prior coding experience on Git workflows and React best practices, guiding them to build website features independently.

QWeb Development | Frontend Developer | Sept 2024 - April 2025

- Designed the UI in **Figma** for the Queen's University Malayalee Association's client website, translating client requirements into wireframes and mockups.
- Built out the design in **React** as part of a 3-person team, collaborating to deliver the final handoff.

PROJECTS

Revved Up (Capstone Project), Accessible Fitness platform | Backend Developer | Sept 2025 - April 2026

- Architected and developed a full-stack **TypeScript** and **Node.js** system as part of a 5-person team, converting a manual, paper-based trainer workflow into a fully automated digital system.
- Led **requirements gathering** across 2 months, interviewing kinesiologists and observing gym sessions to design role-based permissions for 4 user types, resulting in only 2 minor change requests at handoff.
- Deployed the system to **Azure**, enabling 70+ users to access workout programs; earning an Honourable Mention at Queen's Creative Computing Showcase 2026.

Fint, iOS & iPadOS Finance App | iOS Developer

- Built an expense tracker with **Swift** that scans receipts and logs purchases automatically; live on the Apple App Store (**iOS, iPadOS, macOS**) with a 5-star rating.
- Built spending dashboards and charts with **SwiftUI** that give users real-time visibility into their finances.
- Notified users when they're close to spending limits, helping them stay on track with their budgets.

Uforiya, Music Collaboration Platform | Fullstack Developer

- Architected and launched a web app solo with **Next.js** for musicians to collaborate remotely on unreleased music; live with 20+ users.
- Rebuilt the audio processing system to run only when a file is uploaded instead of constantly checking for new files, cutting compute costs 10x and reducing processing time from seconds to milliseconds.
- Protected unreleased music and user data by enforcing permissions at the database level across 13 tables, making it architecturally impossible for anyone to access data they shouldn't.

PROFESSIONAL EXPERIENCE

Digital Classroom Support Staff, Queen's University IT Services | Sept 2025 - April 2026

- Performed **preventive maintenance** and A/V diagnostics across 130+ classroom spaces, escalating specialized issues to senior technicians; keeping systems running reliably for class time.
- Responded to emergency support calls during lectures, quickly restoring mics, projectors, and displays to minimize disruption.

Teaching Assistant, CISC101 (Intro to Programming) | Queen's University | Sept 2023 - April 2024

- Delivered weekly **Python** workshops to 200+ students, breaking down programming basics for 50+ struggling learners so they could grasp the material and complete the course.
- Provided 1-on-1 **tutoring** to 10+ students with no coding experience, helping them independently write their first Python programs.

SKILLS

- **Technical Skills:** JavaScript, HTML, CSS, Java, Object Oriented Programming, Git, Xcode, PostgreSQL, SQLite.
- **Soft Skills:** Cross-Functional Collaboration, Problem-Solving.

CERTIFICATIONS

- **Meta iOS Developer Professional Certificate** | Coursera | July 2026
